

NOMEX

Nomex® IIIA Coveralls from Lakeland

Every day, fuel handlers, pipeline workers, off shore oil rig crews, industrial workers and linemen are exposed to the hazards of flash fires or explosions. Many injuries can be avoided or minimized if workers are wearing flame resistant protective clothing.

Lakeland flame resistant coveralls have the built in toughness and the uncompromising features that you expect from a leader in the flame resistant market. Our durable coveralls are designed to provide maximum comfort, protection and features. From our reinforced stitching to our covered snaps, Lakeland Nomex® IIIA Coveralls have details that you won't find in any other coverall.

No one can predict when an incident will occur, so be prepared with the best protection available. Lakeland coveralls made from Nomex® IIIA.
