Introducing Lakeland’s FR Layering System

Lakeland’s layering system is a lightweight inherent moisture management system that includes base layer to outerwear. As your activity level increases, you shouldn’t notice a difference in overall dryness. Permanent moisture wicking fibers in your layering system should work to keep you dry with every added layer, so you never feel wet on the job.

As temperatures fluctuate, your layering system should work with you to keep you both dry and warm. Your mobility level should not be compromised by your FR clothing. A layering system designed to function effectively in every climate, regardless of activity level, is the ultimate goal.

Stay focused on the task at hand and safe on the job with a layering system that performs for you in every possible scenario.

Layering systems are not created equal. From base layer to outer layer, make sure your layering system offers permanent moisture wicking technology, wind and water resistance and the FR protection you need on the job.

C065DH
6.5 oz. Westex® DH FR Coverall

Maximum Protection!
- 6.5 oz. lightweight inherently FR fabric
- Excellent breathability
- FR protection cannot be washed out or worn away
- Optimized moisture management

Maximum Features!
- Pleated bi-swing back gives superior freedom of movement
- Elastic waist provides better comfort
- All exposed metal next to skin (snaps, etc.) are FR fabric covered for maximum protection
- Two patch breast pockets, left chest pocket has a pen slot
- Two swing pockets with internal pass-thrus
- Utility pocket on right leg
- Adjustable sleeve cuffs
Fabric: 6.5 oz. Westex® DH, inherently FR fabric
ATPV: 8.9 Cal/cm²
CAT: 2
Sizes: 36 to 66, Talls also available
Colors: Navy, Khaki, Royal Blue, Orange and Safety Yellow

Meets the performance requirements of NFPA 70E and ASTM F1506-08. Acceptable for use in occupations covered by OSHA Final Rule 1910.269
