

COLOR BLOCK KNITS

**BUILT FOR THE
INDUSTRIAL ATHLETE**

LIGHTWEIGHT | INHERENTLY FR | PERMANENT MOISTURE-WICKING

When facing hazards like arc flash or flash fire, the right base layer is essential for both safety and comfort. The Lakeland High Performance Long Sleeve Color Block is engineered to deliver dependable flame-resistant protection without sacrificing breathability or ease of wear.

Designed for workers who demand more from their gear, this lightweight garment combines advanced moisture management, odor control, and thoughtful construction. Whether in extreme summer heat or freezing winter conditions, the Color Block Knit Crew helps you stay dry, stay visible, and focused on the job.

PROTECTION YOU CAN TRUST

Crafted from inherently flame-resistant fabric, this base layer weighs only 6.9 oz. Despite its lightweight design, it delivers reliable FR protection and durability for hazardous environments.

MOISTURE & ODOR CONTROL

Permanent moisture-wicking technology ensures moisture is pulled away from the body, keeping you dry in both hot and cold conditions. FUZE® odor control technology helps maintain freshness during long shifts.

COMFORTABLE PERFORMANCE

The athletic fit allows for all-day comfort, whether at work, at the gym, or on the move. Flat seams and a seam-free shoulder design reduce friction and prevent chafing, ensuring you can stay focused on the task at hand.
