

WESTEX® DH AIR™

**BUILT FOR THE
INDUSTRIAL ATHLETE**

LIGHTWEIGHT | INHERENTLY FR | PERMANENT MOISTURE-WICKING

Westex® DH Air™ delivers all the trusted performance of Westex® DH in a lighter-weight, CAT 2 fabric. It offers reliable arc flash and flash fire protection while enhancing breathability and moisture management – perfect for demanding environments. Plus, it maintains exceptional color consistency, ensuring a professional appearance wear after wear.

PROVEN PERFORMANCE

When dual-hazard protection is necessary, the Lakeland DH Air Button-Up Shirt is a reliable choice. Weighing between 5.5-5.7 oz., this lightweight and comfortable mid-layer garment features a rounded tail and convenient chest pockets to add a touch of sophistication to your workwear style.

CAT 2 PROTECTION

With the DH Air Button-up, you get CAT 2 protection combined with inherent FR fabric and permanent moisture wicking technology. This ensures a safe and comfortable experience, allowing you to focus on the job without compromise. You are sure to find a shirt you like with our array of colors: grey, navy blue, khaki, hi-vis yellow, and hi-vis yellow/grey color block. This is an ideal shirt in an environment where arc flash and flash fire hazards are present.
