

## MicroMax® NS – MNSG Global Pattern for Greater Protection

Lakeland's MicroMax® NS MNSG 55gsm is CE-certified and features a global pattern, making it a great choice for international companies.

The MNSG 55gsm coverall comes in MNSG428, MNSG417, and MNSG414 styles, with four sizing options to simplify ordering and reduce inventory requirements.

See our product datasheet for specifications.

The MNSG 55gsm coverall offers protection against biological hazards, chemical splash, and dry particulates, making it suitable for applications such as:

-  Automotive
-  Aerospace
-  Paint Booth Operations
-  Abatement/Remediation
-  General Maintenance
-  Infectious Agents/  
Biological Hazards
